

## WILL OCTOPUS GET CONTROL?

The Big Interests are Stretching Out Their Tentacles Toward Western Canada.

## RECIPROCITY THE ISSUE OF ELECTION

The Liberal Campaign in Saskatchewan is a Fight for Wider Markets.

Regina, June 24.—Despite the intense heat the campaign has started this week in most vigorous fashion. In every riding in the province both sides are holding immense meetings and they are well attended despite the weather. Both sides are bringing in outside speakers. Hon. C. N. D. and Hon. Duncan Marshall are here from Alberta in the Liberal interests, and Ralph Smith, ex-M.P. of Nanaimo, B.C., addressed a Regina gathering tonight on behalf of the Scott government.

A number of Manitoba orators have been brought in on behalf of the Conservatives. The campaign is being conducted largely on the question of reciprocity, and the Liberals are pointing out that the Conservative party is tied up to the big interests. The leading Liberal paper, The Leader, in a seven column head today announces that the issue is "shall the people or the big interests rule Saskatchewan?"

**Otopus in West.**  
A five column cartoon depicts the big interests as an octopus with its head at Toronto and tentacles around Ottawa and Winnipeg and reaching out for Saskatchewan. Underneath is the following reading:

"With the advent of Premier Borden to power last September the Big Interests Octopus from its lair in Toronto commenced to reach out boldly to fasten its clanking tentacles upon the people of Canada and now the Beast is hovering over Saskatchewan was proposed to encircle this province. Should Saskatchewan by any chance succumb to it and Mr. Borden and the Hamilton government be placed in power, then nothing could prevent the Octopus from working its way into the common people of Canada. The fight today is a fight between the Common People and the Big Interests Octopus, and for the Common People it is a fight for very life."

## The Conservative Reply.

The Conservatives declare that reciprocity is absolutely dead and that the Liberals are only raising the present discussion of their administrative record. They reply to the Big Interests cry by declaring that their policy of inflexible and uncompromising opposition for the farmer, control of railway rates and international storage elevators are planks to which the Big Interests are bent on pointing to the Liberal senators who are interested in corporations and mergers.

It is generally admitted that the success of the Liberal campaign depends largely on the ability to keep the reciprocity sentiment. Whether they will be able to do so or not is impossible to tell and these facts informed on both sides admit it is impossible to do any predicting as to the outcome.

## IN OBEDIENCE TO P. BURN'S ASSASSIN

Chicago, June 24.—By the judgment of the supreme court of the United States, the United States government has been ordered to pay the cost of the trial of the assassin of President McKinley, who was executed on June 30, 1901.

TUESDAY, JUNE 25, 1912.

### ANOTHER FORBIDDEN OUTLET.

The Canadian Northern Company have about completed the Duluth, Winnipeg and Pacific Railway, which gives them a line into Duluth. This would provide another "outlet" to the south, if what Western Canada producers were allowed to be shipped that way.

### THE QUESTION.

Reports from all parts of the Province are to the effect that crops are two or three weeks ahead of their usual growth at this time of the year, with splendid growing conditions prevailing. The surplus grain which must be exported or allowed to rot, promises to be much larger this year than last. As a large proportion of this year's crop is still in the elevators, the question seems timely: What is to be done with this year's larger yield?

### CUTTING GRAIN RATES.

United States railways are cutting the grain rate from Buffalo to New York, in hope that part of the wheat now in the elevators of Western Canada will find its way to Europe by that route. It is to be hoped they succeed. If so, the elevators will be emptied sooner, and the monopolistic policy of "reserving" the grain traffic for the Canadian railways will be shown to be impracticable. Whether they succeed or not, the large degree or not, the cut should compel the Canadian routes to reduce their rates.

### MINISTERS RESPONSIBLE.

Local cement dealers complain that the C.P.R. has not been going forward with any responsibility in despatching the limited amount of cement which the merger has shipped to the head of the Lakes. Had the Government taken off the duty on cement, the merger would have been brought to bear alike on the cement merger and the railway companies to take active measures to supply the cement needed in the West. Having refused to knock off the duty, the Government becomes partially responsible for the hardship inflicted upon cement buyers and investors; whether the cause of the hardship is the monopolistic methods of the cement trust or the tariff on cement, the C.P.R. is responsible for the tariff and allowing United States cement to come in freely. The Ministers could bring back the Canadian cement merger and the Canadian railway companies to time.

### EXIT?

It is rumored that Premier Roblin, of Manitoba, will retire from politics shortly. He probably will, voluntarily, by the invitation of the public. The Government of Mr. Roblin is head-like in its travel, led mostly on "buff," and there are signs that it may not carry them much farther. For years, the one ground upon which the Government appealed for public support was that Manitoba was being unjustly treated by the Laurier Government in respect to the extension of the provincial boundaries. No sooner had the Laurier Government granted the boundary than substantially the settlement which that Government had offered was accepted by Mr. Roblin, with profuse assurances of complete satisfaction. The difference in the bargains was that the Borden Government took from Manitoba the control of the provincial swamp lands, while the Laurier Government had not proposed to do, making a cash allowance therefor. In accepting an eminently satisfactory from the Borden Government, Mr. Roblin may have declined for years from the Laurier Government, Mr. Roblin and his colleagues ad-

## CHIEF LAUDER SEES INCREASES FOR MEN

Head of Fire Department Presents Request to Commissioners for Increase in Salary for Himself and for the Men-Police One With One Cent.

"Owing to the increased work in my department I consider that my men and myself are entitled to an increase," says Chief Lauder, of the fire department, in a letter to the commissioners in which he asks that the men of his department receive the same advance as was granted the police on Saturday. Further he asks that he receive the same salary as the chief of police.

The long hours required of the firemen is another reason put forward for the increase. "We have no public holidays or Sundays off," says the chief. The "fireman day" consists of 21 hours duty with 3 hours off only for meals. Out of the 24 they have 21 hours relief every week. The police are out in the open air, whereas the firemen are housed up all day and must keep within sound of the gong. I also find that with the increased cost of living and the low scale of wages it is hard to keep next class men.

The commissioners asked the chief to supply them with the schedules in force in Calgary, Regina, Winnipeg and other cities, when the matter will be taken up.

### FEDERAL AUTHORITIES REFUSE TO ASSIST CITY

Department of Public Works Refuses to Join with City in Constructing New Bridge to Replace the Present Low-Level Bridge—Warning Issued as to Traffic.

The Dominion Government cannot now say it is going to assist the city in building a large bridge on the site of the present low-level bridge. The information contained in a letter received by Mayor Armstrong yesterday from Hon. C. G. D. Lauder, secretary of the Department of Public Works.

I am directed to state that the department cannot now say it is going to assist the city in building a large bridge on the site of the present low-level bridge. The information contained in a letter received by Mayor Armstrong yesterday from Hon. C. G. D. Lauder, secretary of the Department of Public Works.

### SEVENTY TWO WILL RUN THE MARATHON AT OLYMPIC GAMES

Entry List at Stockholm Greater Than On Any Previous Occasion.

### NINETY-FIVE RUNNERS IN THE 100-METRE DASH

Time for Athletic Program to Be Extended to Avoid Conflicts.

Stockholm, June 23.—The number of entries for the Olympic games in the 100-metre dash is 95. Seven heats and two qualifying rounds will be necessary to run the 100-metre dash. The 100-metre dash is the first of the six men's events to be run in the final.

### ROSS BROS. SELL OUT TO MARSHALL WELLS

Duluth Hardware Company Negotiates Purchase of Ross Bros. Hardware Business in Edmonton District—To Operate Under New Company With a Million Capitalization.

Marshall Wells Hardware Co., of Duluth, have finally completed negotiations for the purchase of Ross Bros. hardware business. The company, which is the strongest hardware concern in America, will incorporate under the laws of Alberta, retaining the Marshall Wells name, and capitalizing at \$1,000,000.

The officers and directors of the new company will be: President, Marshall Wells; Vice-President, A. H. Conant; Treasurer, R. C. Hooper; Secretary, M. J. Sullivan; and A. M. Marshall, Jr. and J. J. Dowling.

Marshall Wells company will not purchase the property Ross Bros. on Third street, where their four-story building is situated, but will lease the building for a term of years.

How Brothers are the oldest established hardware merchants in the Edmonton district. They have been in business for thirty years and have maintained a very high reputation.

It is the intention of the purchasers, who recognize the growing importance of the Edmonton field for the development of the business, to add materially to the stock of Ross Bros.

## CHIEF LAUDER SEES INCREASES FOR MEN

Head of Fire Department Presents Request to Commissioners for Increase in Salary for Himself and for the Men-Police One With One Cent.

"Owing to the increased work in my department I consider that my men and myself are entitled to an increase," says Chief Lauder, of the fire department, in a letter to the commissioners in which he asks that the men of his department receive the same advance as was granted the police on Saturday. Further he asks that he receive the same salary as the chief of police.

The long hours required of the firemen is another reason put forward for the increase. "We have no public holidays or Sundays off," says the chief. The "fireman day" consists of 21 hours duty with 3 hours off only for meals. Out of the 24 they have 21 hours relief every week. The police are out in the open air, whereas the firemen are housed up all day and must keep within sound of the gong. I also find that with the increased cost of living and the low scale of wages it is hard to keep next class men.

The commissioners asked the chief to supply them with the schedules in force in Calgary, Regina, Winnipeg and other cities, when the matter will be taken up.

### FEDERAL AUTHORITIES REFUSE TO ASSIST CITY

Department of Public Works Refuses to Join with City in Constructing New Bridge to Replace the Present Low-Level Bridge—Warning Issued as to Traffic.

The Dominion Government cannot now say it is going to assist the city in building a large bridge on the site of the present low-level bridge. The information contained in a letter received by Mayor Armstrong yesterday from Hon. C. G. D. Lauder, secretary of the Department of Public Works.

I am directed to state that the department cannot now say it is going to assist the city in building a large bridge on the site of the present low-level bridge. The information contained in a letter received by Mayor Armstrong yesterday from Hon. C. G. D. Lauder, secretary of the Department of Public Works.

### SEVENTY TWO WILL RUN THE MARATHON AT OLYMPIC GAMES

Entry List at Stockholm Greater Than On Any Previous Occasion.

### NINETY-FIVE RUNNERS IN THE 100-METRE DASH

Time for Athletic Program to Be Extended to Avoid Conflicts.

Stockholm, June 23.—The number of entries for the Olympic games in the 100-metre dash is 95. Seven heats and two qualifying rounds will be necessary to run the 100-metre dash. The 100-metre dash is the first of the six men's events to be run in the final.

### ROSS BROS. SELL OUT TO MARSHALL WELLS

Duluth Hardware Company Negotiates Purchase of Ross Bros. Hardware Business in Edmonton District—To Operate Under New Company With a Million Capitalization.

Marshall Wells Hardware Co., of Duluth, have finally completed negotiations for the purchase of Ross Bros. hardware business. The company, which is the strongest hardware concern in America, will incorporate under the laws of Alberta, retaining the Marshall Wells name, and capitalizing at \$1,000,000.

The officers and directors of the new company will be: President, Marshall Wells; Vice-President, A. H. Conant; Treasurer, R. C. Hooper; Secretary, M. J. Sullivan; and A. M. Marshall, Jr. and J. J. Dowling.

Marshall Wells company will not purchase the property Ross Bros. on Third street, where their four-story building is situated, but will lease the building for a term of years.

How Brothers are the oldest established hardware merchants in the Edmonton district. They have been in business for thirty years and have maintained a very high reputation.

It is the intention of the purchasers, who recognize the growing importance of the Edmonton field for the development of the business, to add materially to the stock of Ross Bros.

## NOW ENJOYING SPLENDID HEALTH

Newsman And Dyspepsia Cured By "Fruit-Lives"

WALKER, Ont., May 29, 1912.—"My health was extremely nervous, brought on by indigestion or dyspepsia, from which I suffered in seasons. I asked Dr. Hunter, my druggist, about 'Fruit-Lives' and he advised me to try them. I took several boxes and am pleased to say I am now enjoying fine health. I honestly believe I owe my health to 'Fruit-Lives' and strongly advise anyone suffering from indigestion, dyspepsia, nervousness or sleeplessness, to commence using 'Fruit-Lives' and continue this remedy until a cure is accomplished."

ALEX. McCARTHER.  
 "Fruit-Lives" is sold by all dealers at 25c a box, 6 for \$2.50 or total sale, 25c—write Fruit-Lives Limited, Ontario.

## LYCEUM THEATRE WAS STRUCK BY LIGHTNING

During Height of Electrical Storm Early This Morning Roof of Theatre Was Struck and a Large Section of It Fell in—Theatre May Now Be Closed.

One result of last night's electric storm was the collapse of a portion of the roof of the Lyceum theatre. One of the beams supporting the roof was struck by lightning about two o'clock and the roof fell in, causing the collapse of the structure and the collapse of the roof of the theatre.

The theatre is expected that it will be at least a week before the theatre is opened for business again. Manager McArthur is expected to be in the city to see the damage and to see if it is possible the building might be repaired.

During the worst part of the storm early this morning, some trouble was experienced in the city. The city was hit by lightning about two o'clock and the roof fell in, causing the collapse of the structure and the collapse of the roof of the theatre.

The theatre is expected that it will be at least a week before the theatre is opened for business again. Manager McArthur is expected to be in the city to see the damage and to see if it is possible the building might be repaired.

**INNISFAIR**

In News Service, 15-1

The direction of the McMillan-Ladies' Aid was very successful and very enjoyable last evening. The program was given at the residence of Wm. Gunter, one east of town. The grounds were nicely arranged for the occasion. Numerous were served and the band played delightful selections while during the evening. The McMillan-Ladies of the town were the mother of their successful at the opera house last evening owing to the hot weather it somewhat late before dancing commenced.

Darkenmeyer shipped some hogs on Thursday evening last. The firm is in Grand Forks and will ship their annual celebration at

town on the 12th July.  
Wednesday the U. S. A. will be held at Kneehill Valley. Besides the various reports there are some interesting speeches by Barnett, of this town, and  
Experimental examinations com-  
at the public school on Mon-  
day. Mr. Cooke at Antler Hill, three  
half miles from town, and is  
swimming there.  
The weather is hot and everything  
abundant. The crops appear to give gen-  
eral satisfaction.

# GREAT DISCOVERY OF NATURAL GAS

## BY THE MUNICIPALITY OF TOFIELD SPELLS FORTUNE TO THE GROUND FLOOR MEN

Do YOU want to be a GROUND FLOOR MAN? We are forming a syndicate to purchase a Half-Section of the best situated and at \$100 per acre, ONE MILE from the town and the big natural gas well overlooking a beautiful lake about 15 miles long. Every lot a VIEW LOT, HIGH and DRY.

## TWO MILLION FEET OF GAS STRUCK AT TOFIELD GREAT DISCOVERY OF NATURAL GAS WITHIN 40 MILES EDMONTON

Drillers Working for Municipality of Tofield  
Open up Enormous Flow at 1041  
Feet—Believed To Be In  
Medicine Hat Strata

TOFIELD GAS WELL  
THROWS GEYSERS  
75 FEET IN AIR

Natural gas at a pressure which according to the experts will insure a flow of from 1,500,000 to 2,000,000 cubic feet per twenty-four hours, was struck yesterday afternoon at Tofield, 50 miles south-east of Edmonton on the G.T.P., at a depth of 1041 feet, by well drillers who have been employed by the municipal corporation for the past twelve months.

There were 400 feet of water and mud in the well in which the tools were working and as the seam was pierced an immense geyser spouted forth to a height of 40 feet, besmattering houses across the street from the well.

Capping operations will be commenced as soon as the wind is favorable. The boiler used in connection with the work has been removed for safety from its location 40 feet from the well to a point 120 feet away, as it was feared that escaping gas might cause an explosion.

Since drilling was commenced under the auspices of the municipality a year ago, \$11,000 have been expended on the contract. Mr. Elder, the gas expert who drilled the first island well from which the natural gas supply of Calgary is being obtained, declared that the flow could not be less than 1,500,000, while he believes that it will be in the neighborhood of 2,000,000 cubic feet per day. In conversation over the high distance shown with the Capital today he expressed the opinion that the seam is identical with the seam which nourishes the province from north to south, extending from Medicine Hat to Fort McMurray.

Medicine Hat, Tofield and McMurray, he pointed out, are equidistant from the Rocky Mountains, and as there is nowhere any indication of any great disturbance of the formation the hypothesis that the strata is regular throughout the entire distance seems reasonable. It was estimated by the gas men employed to advise the Tofield corporation that a good pressure would be struck at a depth of about 1,000 feet. The contract was taken by Mr. Campbell last year and after his death W. A.

Nether of this city took it over and has now carried the drilling through to a depth which will be acceptable to the council. The contract was for a well 1,200 feet in depth.

The flow which was struck yesterday is the sixth since the beginning of the operations 12 months ago. All of the others were under very slight pressure, however, and soon petered out, as the experts expected they would.

**Gas Spells Prosperity.**  
To the city of Edmonton the discovery is of enormous significance. It spells cheap power, cheap fuel and light and will make possible the industrial development of the city at a rate unheard of in its past history.

It means that Edmonton will become the industrial metropolis of the prairie provinces as she has already become its greatest railroad and commercial center.

Since yesterday's strike real estate prices in Tofield have been rapidly soaring.

Property which could have been obtained for \$1,500 a couple of days ago has now increased to \$1,500 and \$1,900, while in some instances the really important is not less than \$100 per cent.

Gas Flow Released by Removing Drill, Develops Enormous Force.

Tofield, Alberta, June 24.—Special to the Capital by Long Distance Phone.—At 2:45 this afternoon the drillers drew the 2,000-pound drill from the bottom of the gas well and allowed the gas to escape freely. Immediately a geyser of mud and water shot up to a height of 75 feet, splashing the entire neighborhood and making a merry sight of the dry goods and millinery of the curious who had gathered to witness the effect of the release of the gas and creating a roar which could be heard for a great distance.

Today's exhibition of the force and power of the well fully corroborates the statements of the experts of Saturday that now would be not less than two million feet.

Property values in Tofield are being estimated at \$1,500,000 worth of property.

Most of it going to the State from Edmonton and Winnipeg who have rushed in to take advantage of the great gas discovery. Lots on Main street, which were held previously to Saturday at not more than \$1,000 are today turning freely at \$1,000. Over a hundred arrivals from the outside were recorded at the local hotels yesterday.

**\$333.33 CASH**

\$333.33c. in one year; \$333.33c. in two years, buys a 1-32 interest which is equivalent to 70 lots, 30x120, or more than 2 city blocks. If retailed at only \$100 each would bring \$7,000, or a profit of \$18 to \$1 on the initial investment.

This land is in the heart of an immense coal area, while most of the adjoining lands are covered by gas and oil leases.

If the town of Tofield with its natural gas, coal mines and oil prospects, not saying anything of its agriculture, is going to prosper, every one of the 32 shareholders will reap a handsome profit.

Honestly, if you have a speculative bone in your body, come in quick and investigate our offer.

Come in early as this syndicate should be fully underwritten within twenty-four hours.

**\$333.33 Will Get You in on The Ground Floor**

## CHAS. TAYLOR LANDS TOWFIELD GAS STRIKE

The Only Other Well in the Province to Exhaust This One Will Be His Cousin at Bow River Says Will Known Later.

Preparations were made Monday afternoon to cap and measure the gas well struck at Towfield on Saturday, according to Charles Taylor, of that town, better known to Edmonton people as former street railway superintendent here.

"The gas looks to be about ninety per cent. methane," said Mr. Taylor to a Bulletin reporter. "Of course it has not been analyzed or measured yet, but when it is put to rest the statement that there will be only one other gas well in the province that will exceed this one, and that is the big gusher at Bow Island."

According to Mr. Taylor, the well at Towfield will prove a commercial well. He estimates the flow at 1,000,000 cubic feet per day. This, if sold at five cents per thousand, would mean \$15 per acre return.

The work of capping the well was to be done last night. The well itself is right in the centre of the town, not more than fifty yards from the town hall. Two families moved from their homes on Monday because they were so close to the well that it was feared their homes might catch fire.

"One result of this," said Mr. Taylor, "will be that the well will become the brick and the centre of the province," said Mr. Taylor, "for with the great city hospital and church power, the town will be better situated for this class of work than any other in the province."

Young Bank Clerk of Vermilion Loses His Life and 18-Year-Old Brother—Another at Mithun.

Vermilion, June 24.—News has reached here of three drownings during the past two days. One, a young man named Chapman, junior keeper in the Merchants' Bank of Canada at Mithun, in a lake near that town yesterday. He tried to swim across, but when about half over he called out to his friend that he could not do it and sank to the bottom. The water was cold and it is thought he was soaked with a cramp. He was English, about 19 years of age and no relative in this country.

The other was a young man named Ashdown, who was also drowned while bathing in a lake near Mithun. The bodies of the unfortunate victims have been recovered.

A sad drowning accident occurred near the home of Mrs. Ashley, south east of Inverness, yesterday, when her 13-year-old son Gerald met death in company with W. Beare of Inverness.

The two young men were swimming in a small lake and were out about thirty-five yards from shore, when standing around there noticed that his companion, who was only a few yards away, had disappeared.

When about ten yards from shore in a final struggle Beare was unable to hold the drowning boy, who disappeared in about seven feet of water. Cries of help brought assistance from the house, but it was about twenty-five minutes before the body was recovered, when life was extinct.

It is not thought that the lad suffered from cramps, as on recovery the body was quite limp. The deep sympathy of the entire district is tendered the bereaved father, mother, brothers and sisters of the young man, who was highly respected in the community.

Did Glad make man or man make Glad. Head the News item.

## START WORK IN COLORADO.

The Roosevelt Leaders Will at Once Proceed to the Organization of That State.

Denver, Colo., June 24.—The Roosevelt Progressives of the Republican League of Colorado will start work at once to secure control of the state legislative organization and will then Roosevelt men to the electoral college.

An announcement was made at headquarters today that an address to the voters of Colorado would be prepared immediately. Every person in the state is to be organized and there will be no less of twenty workers instead of two provincial committees.

## 3 DROWNINGS ON C.N.R. LINE.

Young Bank Clerk of Vermilion Loses His Life and 18-Year-Old Brother—Another at Mithun.

Vermilion, June 24.—News has reached here of three drownings during the past two days. One, a young man named Chapman, junior keeper in the Merchants' Bank of Canada at Mithun, in a lake near that town yesterday. He tried to swim across, but when about half over he called out to his friend that he could not do it and sank to the bottom. The water was cold and it is thought he was soaked with a cramp. ### OCEAN BOUND MADE RECORD

Beat All the Fastest Horses in Canada and the United States.

CARRIED A BUNCH OF CORN WITH HER

Remarkably Fast Time of 1:00 3/5 Was Set Up In the Race.

Hamilton, June 23.—Woodford City, Kentucky started a bright page in Canadian turf history, when Ocean Bound won the National Handicap, the feature of the closing day, beating all the best horses in Canada and the United States.

She won in record time. The largest crowd that ever gathered at a Canadian turf event was present at the race, and the race was a great success.

She won in record time. The largest crowd that ever gathered at a Canadian turf event was present at the race, and the race was a great success.
